**Summary of reasons
for classification:**

The DVD *Kinsey* is classified as:
Objectionable except if the availability of the publication is restricted to persons who have attained the age of 16 years.

The DVD contains a feature that is identical to the 35mm film version previously examined and classified by the Classification Office. This 35mm film version was classified as "Objectionable except if the availability of the publication is restricted to persons who have attained the age of 16 years", with the descriptive note "Contains sex scenes". The decision was registered on 15 November 2004.

The DVD *Kinsey* has additional components, in the form of deleted scenes and outtakes from the feature, a commentary by the feature's writer and director, seven notices, and three trailers. The additional components do not provide grounds to alter the classification given to the original 35mm film version of the publication.
